**Subject:** RE: Latest version of Red Hill SOW, January 12, 2015  
**Attachments:** Red Hill SOW January 12 Track Changes\_EPA\_14JAN15.docx; Red Hill SOW January 12 Clean\_EPA\_14JAN15.docx; Copy of Table of Deliverables\_13JAN15.xlsx

Here is the most up to date version I have.

Steve wanted me to let you know that more changes in the next couple of days may be coming because of discussions with the attorneys. However, he said that prior to sending that over, he would talk it over with Captain Tufts.

Separately, I have also attached the deliverables table. Green coloring in the sheet indicates a new numbering, yellow indicates new deliverable section in the table (although I did not create any new deliverables.)

I did not make your edit of "release detection systems" replacing "LDS and tank tightness testing", so feel free to make that change or I can.

Thanks for coordinating, it makes the process much easier. Please let me know if you have any additional questions or comments.

Omer,

Great revision. A quick question on the Leak Detection System Sect (4) when you get a free chance to chat: (703) 767-7343. I'm in DC right now, so 3 hours ahead instead of in Japan. Thanks!

Respectfully,  
Danae

All,

Based on our three hour conference call on Thursday, January 8, 2015, here are two versions of the revised SOW, one marked up with changes starting from Bob's Dec 19 version and one clean copy.

Where there are new sections, I have included comments in the track changes attachment to easily flag for all parties. Please note the new introduction section and QA/QC. The Tank Upgrades Section was also revised based on our previous call.

EPA has also gone through to polish the language and formatting throughout the SOW so there are very minor changes throughout the document. The table of contents is also updated.

I did not have access to the Deliverables Table so I will send that out tomorrow to reflect some changes in organization.

Please let me know if you have any comments or concerns regarding the attachments. EPA will contact the parties shortly to set up another conference call.

Sincerely,

Omer Shalev

Subject: Latest version of Red Hill SOW, December 19, 2014

All,

Based on our three hour conference call yesterday, Thursday December 18, 2014, here are two versions of the revised SOW, one marked up with changes starting with Danae's Dec 17 version and one clean copy.

Also a reminder that our next conference call is scheduled for Thursday January 8, 2015. EPA can provide a conference call number for the meeting.

Hope everyone has a wonderful holiday.
